Introduction

The pilot testing of two continuous VET courses is underway, the first one is aimed at in-company tutors, the second one at job counsellors/professionals working within VET/employment agencies. The courses have a dual purpose: a) promoting quality traineeships, stages and apprenticeships; b) enhancing non-formal learning acquired within work-based contexts. Up to now, there was no training standard to allow the acquisition of the basic competences required to a tutor. WBL Guarantee, an ERASMUS+ project coordinated by the Lazio Region (ITALY) with the participation of 10 other organizations, operating in 5 different European countries, has filled this gap. Today, all those who perform the function of in-company tutor or training tutor, within VET providers and / or employment agencies, which are authorized to activate traineeships, free of charge and on a voluntary basis, can attend the WBL training and receive, upon completion of the course, a certificate of attendance, valid for the purpose of continuous training.

WBL Guarantee (2017-1-IT01-KA202 - 006161) is a three-year project funded within the Erasmus+ KA2 programme. The project developed two specialization courses for the continuous vocational education and training of "in-company tutors" (SMEs) and "VET providers/employment agencies' tutors" working within VET providers and employment agencies which are authorized to activate traineeships (public / private sector)

The pilot testing

By taking part in the pilot testing and attending at least 80% of the course hours you will be able to receive a certificate of attendance, valid for the purpose of continuous training. In countries where restrictive measures have been introduced as a result of the COVID-19 emergency, all training and workshop activities will be carried out in virtual mode.

How can you take part in the pilot testing?

ARE YOU AN IN-COMPANY TUTOR OR BELIEVE YOU WILL TAKE ON THE ROLE SOON?

Here's how you can participate in the pilot testing.

1. Contact the reference organization for your country. (monitoraggioerifo@gmail.com)
2. Participate in the virtual WBL workshops organised by partners, during which you will be explained the reasons for which they have been developed
3. Access the platform and take the course. The course lasts about 3 hours, which you can manage according to your own schedule and using your preferred connection tools (pc, smartphone, tablet).
4. Participate in a second virtual workshop to improve your knowledge and skills related to the definition of on-the-job training projects that can guarantee to your trainees full expendability of the competences acquired within in the workplace.

A tutor from **WBL GUARANTEE** will be assigned to you upon registration. S/He will guarantee remote, also in sync, assistance, throughout the whole path. The training is personalized and therefore will be organized on the basis of your specific needs.
